Keystone Shops

Opening February 17th

Last week we visited the soon to open Keystone Shops medical marijuana (MMJ) dispensary on Route 30 in Devon and sat down with chief medical officer Dr. Louis van de Beek. Van de Beek is a principal in Chamounix Ventures, LLC, along with five other principals who are all local to our area. It was difficult to find a location, said van de Beek, When we found this location we had a great deal of local township support. The building, a former Dairy Queen, fit the criteria because the state requires a loading area that is out of sight and there is an enclosed garage in the back of the building, along with dozens of security cameras.
